

The arm shall be SA07 arm, consisting of cast aluminum arm welded to a cast aluminum wall or mounting plate. The wall plate shall feature an irregular texture on exposed surfaces.

The arm shall be a one piece casting with a decorative finial. It shall be equipped with an integral 3"OD x 3"H tenon for fixture mounting. An optional, 8' or 10' cast aluminum decorative back plate is also available. Non-standard configurations may be feasible, please consult factory for details.

Wall brackets shall be pre-wired, with a 12" slack for ease of wiring to source on the wall side and for wiring with wire nuts on the fixture side. Mounting hardware for wall brackets is not included.
