SH20

219" 37" EPA: 2.4 Weight: approx. 25 lbs

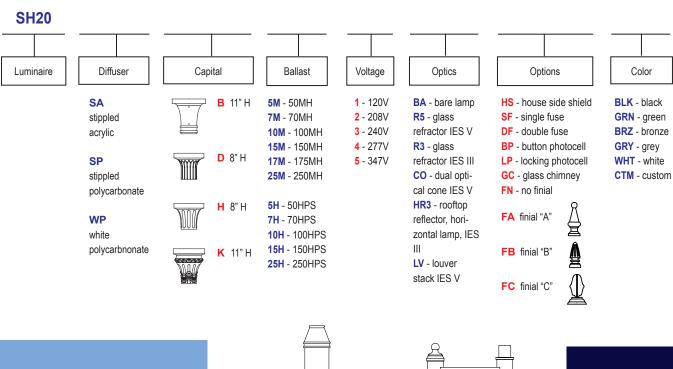

Specifications

The SH20 series luminaire shall consist of a roof assembly, cage, diffuser, capital, ballast assembly and an internal optical system. The acorn-shaped roof shall be made of spun aluminum. It may be topped with an optional finial. The lower section shall be stippled acrylic or polycarbonate. The diffuser shall be secured to the cast aluminum capital with stainless steel hardware or with a quarter turn locking mechanism, both featurning tool-less entry. The cage shall be made of cast aluminum and shall be permanently secured to the capital. All castings shall be formed true to pattern, with no warping or mold shifting.

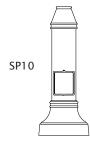

The electrical and optical components shall be mounted on a cast aluminum ballast plate within the capital. The medium or mogul porcelain socket shall be 4kV pulse rated. The HID ballast shall be HPF, CWA, multi-tap, supplied with capacitor and ignitor. Luminaire shall be ETL certifed as suitable for wet locations. Lamps by others.

The optical assembly shall be mechanically secured to the ballast plate and/or the diffuser, as appropriate.

The luminaire shall mount to a 3"OD or 4"OD x 3"H tenon with three sets of two stainless steel tamper resistant screws. All exposed metal parts shall receive baked-on smooth semi-gloss powder coat finish. Ships boxed and palletized.
